Subject: One Stop Shop
Importance: High

Hello all,

We have been discussing our next major priority of our response, which is making sure the impacted residents have access to the resources needed to obtain any necessary follow up care or case management related to lead exposure. We are putting together plans for a one-stop-shop, where residents can come to obtain various services in support of this. Services included in the one-stop-shop are:

Vaccinations

Vital Records

State ID's

Medicaid Enrollment/Navigation

Blood Lead Testing

All of these services will be provided in one location, free of charge.

We are working with state partners to work on the logistics of this, but one request I have on your end is confirmation as to whether we could use the Rec Center Gymnasium on Saturday's to host this event. We intend to begin next Saturday, October 8th.

If you could please let me know as soon as possible, it would be most appreciated. If you have any thoughts or questions, or ideas for other state services that would benefit the community, please don't hesitate to let me know.

Thank you!

LEE CHRISTENSON, MS, CEM
